

DEFECT REPORT ANALYTICS

Bug Report 1

Bug ID

GP-10

Summary

Future Date of Birth Accepted in New Customer Registration

Module

New Customer

Severity

Medium

Priority

Medium

Environment

- Application: Guru99 Banking System
- Browser: Chrome
- OS: Windows 11

Preconditions

User logged in as Bank Manager.

Steps to Reproduce

1. Login to Guru99 Banking System.
2. Navigate to **New Customer**.
3. Enter valid customer details.
4. Enter a future DOB (e.g., 01/01/2028).
5. Submit the form.

Expected Result

System should reject future dates and display a validation message such as:
"Date of Birth cannot be a future date."

Actual Result

System accepts the future DOB and creates the customer successfully.

Impact

User logged in as Bank Manager.

Steps to Reproduce

- 1. Login to application.
- 2. Open **New Customer** page.
- 3. Enter valid customer information.
- 4. Enter invalid City and State values containing special characters or numbers (e.g., "123@@").
- 5. Submit the form.

Expected Result

System should validate City and State fields and reject invalid input.

Actual Result

System accepts invalid City and State values and creates customer successfully.

Impact

Incorrect address information can be stored in the database.

Bug Report 3

Bug ID

GP-12

Summary

Weak Password Accepted During User Registration

Module

Authentication / Registration

Severity

High

Priority

High

Environment

- Application: Guru99 Banking System
- Browser: Chrome
- OS: Windows 10

Preconditions

User is on registration page.

Steps to Reproduce

1. Navigate to registration page.
2. Enter required details.
3. Use a weak password such as "12345" or "password".
4. Submit the form.

Expected Result

System should enforce password policy and reject weak passwords.

Actual Result

Weak passwords are accepted successfully.

Impact

Creates security vulnerabilities and increases risk of unauthorized access.

GP-13

Summary

Deposit Transaction Fails with HTTP ERROR 500

Module

Deposit

Severity

Critical

Priority

Highest

Environment

- Application: Guru99 Banking System
- Browser: Chrome
- OS: Windows 10

Preconditions

- User logged in.
- Valid customer account exists.

Steps to Reproduce

1. Login to application.
2. Navigate to **Deposit** page.
3. Enter valid Account Number.
4. Enter deposit amount.
5. Click **Submit**.

Expected Result

Deposit transaction should complete successfully and account balance should be updated.

Actual Result

Application displays **HTTP ERROR 500** and transaction fails.

Impact

Core banking transaction functionality becomes unavailable.

GP-14

Summary

Intermittent Error While Creating New Account

Module

New Account

Severity

High

Priority

High

Environment

- Application: Guru99 Banking System
- Browser: Chrome
- OS: Windows 10

Preconditions

- User logged in as Bank Manager.
- Customer already exists.

Steps to Reproduce

1. Login to application.
2. Navigate to **New Account**.
3. Enter valid Customer ID.
4. Select account type.
5. Enter initial deposit amount.
6. Submit multiple times.

Expected Result

Account should be created successfully every time with valid data.

Actual Result

System intermittently throws an error and account creation fails.

Impact

Creates inconsistent user experience and may prevent account creation.
